Skills

- Web Development
- Android Application Development
- Desktop Application Development
- Database Architechture and Management
- UI & UX Design
- API Development and Usage
- AI Development

Muhd. Faiq Imran

Software Engineering Student

Education

2024 - Currently Enrolled
University of Stirling

Undergraduate(Bachelor's)
Software Engineering

2020-2023
Arab Unity School

IGCSE'S(High School)
English, Maths, Biology, Physics, Chemistry, Computer Science, Travel and Tourism

Expierence

2026 Sept - 2026 Oct
AgenticX AI Lab

Machine Learning Intern
A grounding in supervised learning where the emphasis is on the parts that decide whether a model is useful: honest validation, class imbalance, feature leakage and metrics that match the business question rather than the default in the tutorial.

2026 June - 2026 Sept
FlyRank AI

Machine Learning Intern
My responsibilities included preparing and analyzing datasets, implementing Python-based machine learning workflows, evaluating model performance, and applying reliable machine learning practices.

Technical Achievements

- Junkbot Robotic competition (Participation)
- Texpo Programming Competition (1st Place)
- NASA Space Apps Competition 2025

Technical Skills

- Web Development with HTML, CSS, JS and Additionally .Net Framework.
- Intermediate Skills with C++, Java, and .NET Framework
- Advanced Skills with Python
- Windows Application Development with various languages
- Mobile Application Development(Mainly Android)
- DataBase designing skills and intermediate knowledge of MYSQL and SQLite
- API Development, and Management

Projects

- Flight Tracking Web Application
- Health, and Sleep Tracking Mobile Application
- Credit Scroing Model
- Hand Written Character Regocnition
